WHAT YOUR BUYERS ASK FOR

Certified fabric processing unit.

Your buyers ask for proof of how a fabric was processed. Our unit holds the certificates and programme memberships they look for.

GRS

Global Recycled Standard

Verifies recycled content and tracks it through the supply chain.

GOTS

Global Organic Textile Standard

Processing standard for organic-fibre textiles, with environmental and social rules.

OCS

Organic Content Standard

Verifies organic material and tracks it from source to finished goods.

OEKO-TEX®

Textile testing and certification

Independent testing for harmful substances and responsible production.

SEDEX

Supplier Ethical Data Exchange

Platform for sharing ethical-trade data with buyers.

ZDHC

Zero Discharge of Hazardous Chemicals

Programme guiding process chemicals and waste-water quality.

HIGG INDEX

Sustainability measurement

Standard tools for measuring a facility's environmental and social performance.

7

certificates and programmes

for organic and recycled fibres, product safety, chemicals and working conditions.

IN-HOUSE QUALITY CHECKS

Checked before it leaves.

Every lot is checked in our unit before it is dispatched.

GSM
fabric weight

WIDTH
finished width

SHRINKAGE
length and width

Copies of our current certificates are available on request.

WHY US

Send the fabric, we do the rest.

You send the fabric. We bleach or wash it, dry it, set the width and GSM, control the shrinkage, and raise or shear it where the order needs it. It comes back to you finished.

6 processes in one unit

7 certificates and programmes

2 EHWHA stenters running

CALL OR WHATSAPP

90920 25255
98437 25255

01 SIX PROCESSES, ONE UNIT

White and wash, stenter, compacting, tumble drying, raising and shearing. One team answers for the result.

02 CERTIFIED UNIT

Seven certificates and programmes that export buyers ask for. See page 2.

03 WE COLLECT AND DELIVER

Our own vehicles pick up your fabric and bring it back.

04 CHECKED IN-HOUSE

GSM, width and shrinkage are checked in our unit before dispatch.

05 QUICK TURNAROUND

Every process is in one unit, so your fabric is back with you sooner.

06 WORLD-CLASS MACHINES

EHWHA from South Korea, Navis TubeTex from the USA, Sintec and Mario Crosta from Italy.

CAPACITY, TONS A DAY

15 SOFT FLOW White & Washing	**22** STENTER EHWHA · 2 Machines	**20** O/W COMPACTING TUBETEX / SINTEC
